

SpectraSoy[®] features high quality soy concentrate[†], which supplies a full spectrum of isoflavones including glucoside and aglycone forms of genistin, daidzin, and glycitin, plus other beneficial compounds found in soybeans and soy foods. Careful extraction techniques ensure that the profile and ratios of isoflavones are maintained as they would be found in traditional soy foods. One serving of SpectraSoy provides 45 mg of isoflavones, an amount similar to the average daily intake in Japan.*

Directions: Take one tablet one to two times daily or as directed by your healthcare practitioner.

This product is non-GMO, gluten-free, and vegetarian.

Caution: If pregnant or nursing, or taking medication, please consult your healthcare practitioner before use. Keep out of the reach of children.
