

Probioplex® Intensive Care is an innovative formula produced by a temperature/pH controlled micro-filtration process that yields biologically active immunoglobulins. These immunoglobulins may help support healthy intestinal immune activity. In addition, Probioplex Intensive Care features lactoferrin and lactoperoxidase, proteins that support intestinal health.*

Directions: Take two tablets twice daily or as directed by your healthcare practitioner. Recommend to take on an empty stomach.

This product is non-GMO and gluten-free.

Caution: Keep out of the reach of children.
