

Suggested Usage: Take 1 softgel 2 to 3 times daily with food.

Pantethine is a highly absorbable and biologically active form of pantothenic acid (vitamin B-5). Pantethine is a precursor in the formation of coenzyme A (CoA), an essential cofactor for lipid, carbohydrate, and protein metabolism.* Pantethine also helps to support proper cholesterol production and fat storage in the liver, which can help to promote healthy body fat distribution.* It has been shown in clinical studies to assist in the maintenance of already healthy serum lipid levels for the support of a healthy cardiovascular system when used in conjunction with a healthy diet.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: For adults only. May cause minor gastrointestinal discomfort. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Keep out of reach of children.
