MSM	3,000 mg (3 g)	**
(Methylsulfonylmethane)		
(1,023 mg Elemental Sulfur)		

****Daily Value not established.**

Other Ingredient: Silica.

Methylsulfonylmethane (MSM) is a natural source of sulfur, one of the major building blocks of glycosaminoglycans.* Glycosaminoglycans are key structural components in cartilage and play an important role in the maintenance of joint cartilage.* MSM powder mixes in water and is convenient since there are no tablets or capsules to swallow.
