

CONTAINS NO artificial colors, flavors or preservatives; no wheat, gluten, milk, eggs, peanuts, tree nuts, soy, crustacean shellfish or fish. Suitable for vegans.

Policosanol is a mixture of nine different aliphatic alcohols designed to support healthy cholesterol. Octacosanol, a derivative of the wax from sugar cane plants, is the main ingredient in policosanol and works as a powerful antioxidant to help maintain healthy arteries. This, combined with the actions of eight other alcohols, can support healthy LDL and HDL levels, promoting cardiovascular health.†
