

Recommended Dose: Take 4 capsules 2 times daily, a few hours before or after taking any medication or supplements, or as recommended by your health professional. Take with food to minimize gastric disturbance. Do not take with highly acidic foods or medications which may acidify urine. For occasional use only. **Warning:** If you are pregnant, lactating, taking products containing diuretics, or have heart disease, high or low blood pressure, diabetes, edema, or gall bladder, liver or kidney disorder, do not use. If you have any health condition, are taking any medication, or to exclude a diagnosis of prostate cancer, consult your health professional before use. Do not exceed recommended dose. High dosages of berberine can depress respiration, stimulate intestinal smooth muscle and reduce bronchial constriction. If you experience dizziness, confusion, muscle weakness or pain, abnormal heartbeat, difficulty breathing, nausea, vomiting, or drop in blood pressure, discontinue use and seek medical attention immediately. **Keep out of the reach of children.** Use only if safety seal is intact. Store in a cool, dry place.
