

4Life Transfer Factor® GluCoach®

Targeted support for healthy glucose balance*

- Supports the body’s ability to metabolize glucose and maintain healthy sugar levels
- Features Targeted Transfer Factor® technology
- Provides antioxidant support

What is 4Life Transfer Factor Glucoach?

4Life Transfer Factor® Glucoach® is formulated to promote healthy glucose levels in the body and provide support to both the metabolic and endocrine systems. Enriched with Targeted Transfer Factor and a proprietary blend of healthful ingredients, it supports your body’s ability to metabolize glucose, which helps maintain healthy sugar levels.

Key Features

- Features Targeted Transfer Factor technology to provide focused support for healthy sugar levels in the body
- Includes a proprietary blend of *Pterocarpus marsupium*, *Gymnema sylvestre*, Fenugreek seed extract, *Momordica charantia* fruit extract, and Korean ginseng to support healthy pancreatic function and glucose balance
- Contains transfer factors (immune messenger molecules) that help educate immune cells and promote the immune system’s ability to more effectively recognize, respond to, and remember potential health threats
- Ensures exclusivity with protective United States patents: 6,468,534 (extraction process for transfer factors from chicken egg yolk) and 6,866,868 (combination process of transfer factors from cow colostrum and chicken egg yolk)
