Description

The mixture of adaptogenic botanicals and nutrients in this product are specially formulated to combat the negative effects of stress and encourage healthy energy levels. Cortisol and DHEA, released by the adrenals, are part of the body's "resistance" reaction. Under long periods of stress, an imbalance in cortisol to DHEA ratio can cause fatigue, irritability, and nervous tension. Pure Calm can help support the stress response during the initial alarm phase, fight against "adrenal fatigue" and help balance healthy cortisol levels.
