HEART HEALTH^{**}

Omega-3 fatty acids from Fish Oil are considered the "good" fats important for cellular, heart and vascular health.^{**} Fish Oil is a natural source of eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA), essential fatty acids which may help maintain triglyceride levels already within the normal range.^{**} Omega-3 fatty acids are necessary for many vital functions in the body and support heart, skin and joint health.^{**}

Supportive but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease. [See nutrition information for total fat, saturated fat, and cholesterol content.]

[†]This fish oil product is manufactured using state-of-the-art purification methods to remove contaminants, such as mercury, to guarantee its purity and potency. Mercury is undetectable at the detection limit: 0.005 parts per million.

Suggested Use: As a dietary supplement for adults, take two softgels daily with the meal of your choice.

CAUTION: If you are pregnant or nursing a baby or if you are taking medication, planning any medical procedure, have a medical condition or have bleeding problems, consult your doctor before taking this product.

KEEP OUT OF REACH OF CHILDREN.

Store in a dry place at room temperature (59°F-86°F).
