

SOURCE NATURALS®

DIETARY SUPPLEMENT

B-6

IMMUNE SYSTEM SUPPORT*

50 MG • 100 TABLETS

Supplement Facts

Serving Size 1 Tablet

	Amount Per Serving	%DV
Calcium	28 mg	3%
Vitamin B-6 (as pyridoxine HCl)	50 mg	2,500%

Other ingredients: dibasic calcium phosphate, microcrystalline cellulose, stearic acid, magnesium stearate, and modified cellulose gum.

VITAMIN B-6 is an essential nutrient, required for the metabolism of lipids, carbohydrates, and proteins. It facilitates the conversion of amino acids from one to another as needed, and is necessary for normal synthesis of hemoglobin, as well as for the normal function and growth of red blood cells. VITAMIN B-6 promotes a healthy immune system and helps recycle homocysteine back to the amino acid methionine, thus preventing an unwanted build-up of homocysteine. It is also needed for the synthesis of neurotransmitters and for converting essential fatty acids into prostaglandins (chemical messengers).*

Suggested Use: 1 tablet 1 to 2 times daily.

NOTE: If you are pregnant, may become pregnant, or breastfeeding, consult your health care professional before using this product.

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.

STORE IN A COOL, DRY PLACE.
