†Daily Value not established.

Other ingredients: stearic acid, sorbitol, modified cellulose gum, silica, and magnesium stearate.

B-vitamins are essential components of numerous key enzyme systems, without which the body cannot function. Each B-vitamin fills a different, complementary need, which is why they should usually be taken together. B-vitamins act as coenzymes to catalyze numerous biochemical reactions, aid in energy production, blood cell formation, fat and protein/amino acid metabolism, and are important for the normal functioning of the nervous system.\*

**Suggested Use:** 1 tablet daily.

**NOTE:** If you are pregnant, may become pregnant, or breast-feeding, consult your health care professional before using this product.

**Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.**

STORE IN A COOL, DRY PLACE.
