Pro-Night™ is a combination of slow, medium and fast digesting proteins. Research shows that a blend of high quality proteins elevates muscle protein synthesis for a longer period of time and can have significant positive effects upon your overall performance gains.*

Glutamine is an amino acid found primarily in skeletal muscle. Glutamine has many functions including increased protein synthesis and is also essential for a strong and healthy immune system.

Healing, tissue repair and muscle growth are maximized during deep and restful sleep. PRO-NIGHT provides the nutrients needed to accelerate your recovery and rejuvenate your body for the next intense training session.*

EXPERT TIPS:

> ZMA is to be taken 30 minutes before PRO-NIGHT.

> Add 1 scoop of PRO-NIGHT with 1 scoop of PROGLYCOSYN to 8 ounces of liquid and mix well. Use this as an ANYTIME quality protein source.
