

USAGE: Take 2 capsules 1 or 2 times per day with juice before or after exercise or as directed by your qualified healthcare professional.

NOTE: If you have a medical condition, are pregnant, lactating, trying to conceive, under the age of 18, or taking medications, consult your healthcare professional before using this product.

BCAA Complex contains the ideal 2:1:1 ratio of the free form, crystalline branched chain amino acids L-Leucine, L-Isoleucine and L-Valine combined with the conditionally essential amino acid L-Glutamine.

BCAAs exert an anticatabolic effect by reducing the breakdown of protein (thereby protecting muscle tissue) and promoting muscle growth as well as recovery after workouts.* **Glutamine** is a preferred source of fuel for the intestinal cells and is in high demand by skeletal muscles following physical exertion.* **Vitamin B₆** is essential for amino acid metabolism.*

Keep out of the reach of children.
