

USAGE: Take 1 or 2 capsules per day or as directed by your qualified healthcare professional.

NOTE: If you have a medical condition, are pregnant, lactating, trying to conceive, under the age of 18, or taking medications, consult your healthcare professional before using this product.

Uridine is a nucleotide that acts as a precursor needed—in conjunction with the omega-3 fatty acid docosahexaenoic acid (DHA) and the B vitamin-like compound choline—for the synthesis of membrane phospholipids and brain synapses.* It may enhance some brain cholinergic functions.* Uridine also supports the health and function of liver mitochondria.*

Keep out of the reach of children.
