Deep within the lush Brazilian rainforests of the Amazon grows one of our planet's most remarkable and nutritious fruits. Acai berries (*Euterpe oleracea*) have remained highly esteemed throughout history by Brazilian natives because of their pleasant taste and their ability to promote optimal health and vitality.* This product has 6,500 mg of acai concentrate per 1 oz. serving.

Powerful Free Radical Scavenger*

Acai berries abound in phytonutrients including polyphenols such as rutin, anthocyanins, and catechins. Acai also has ellagic acid. These and other compounds protect bodily tissues from free radical attack, a key factor of healthy aging.*

Healthy Immune System Support*

The nutrients and free radical quenchers present in acai help support healthy immune system function and its healthy response to transient, but normal metabolic stress by promoting proper nitric oxide (NO) production.*

Cardiovascular Support*

In addition to its powerful free radical quenching properties, acai supports proper NO production and healthy vascular response to biological signals.* Each of these properties is important for the support of healthy heart and blood vessel function.*
