

USAGE: Take 1 capsule up to 4 times per day with water or juice, preferably on an empty stomach, or as directed by your qualified healthcare professional.

Jarro-Dophilus EPS® is a *Stable-Dophilus®* probiotic due to its shelf life stability at room temperature and its enteric coating delivery system, which protects the beneficial probiotic strains while in transit through the stomach's acidic environment.* The delivery system ensures that a maximum number of viable cells are delivered into the intestinal tract, where they can fully exert their beneficial effects.* The strains in **Jarro-Dophilus EPS®** are selected from the following 4 genera:

Lactobacillus, *Bifidobacterium*,
Lactococcus and *Pediococcus*.

Probiotic strains such as *B. longum* BB536, *L. rhamnosus* R0011 and *L. helveticus* R0052 are well characterized and have been shown to have the ability to interact, via multiple mechanisms of action, with the intestinal tract and the microbial ecosystem within it.* These strains have been clinically shown to have a positive influence on the composition of the intestinal microflora, promote intestinal health and support immune response.*

Storage Instructions: Jarro-Dophilus EPS® is room temperature stable and does not require refrigeration. Refrigeration will, however, extend the shelf-life. Avoid temperatures above 77°F (25°C).

Keep out of the reach of children.
