

Suggested Use: Mix 1 scoop of SuperCarb into 12-16 oz. of water. Shake well for 30-45 seconds. Consume before, during, or after intense exercise as needed for added energy.

Use the following directions when mixing into larger containers such as a gallon jug or 5 gallon cooler:

Mix 10 scoops of Super Carb into 1 gallon of water. Shake well for 30-45 seconds.

Mix 50 scoops of Super Carb into 5 gallons of water. Stir thoroughly for 45-60 seconds.

VEGETARIAN | GLUTEN FREE | BSE/TSE FREE | NON-GMO

SUPER CARB is a breakthrough in carbohydrate technology designed to fuel performance through the use of the patented carbohydrate Cluster Dextrin®. Unlike typical carbs such as dextrose or fructose, Cluster Dextrin® is a low glycemic, highly branched cyclic dextrin (HBCD) with a high molecular weight and ultra-low osmolality. These properties of HBCD make it highly soluble and promote fast gastric emptying, virtually eliminating the gastric distress often associated with less advanced carbohydrates. Cluster Dextrin® also maintains a slow release, offering the ideal interaction between carbohydrate breakdown and the normal release of free fatty acids. The result is a superior carbohydrate that delivers smooth, constant energy and replenishes muscle glycogen stores without spiking blood sugar levels. ‡

Calci-K® is a registered trademark of Albion Laboratories, Inc. Chelate covered by U.S. Patent 6,114,379. Cluster Dextrin® is a registered trademark of Glico Nutrition Co., Inc.
