

ARTHROLACTIN® contains a natural micro-protein called MicroLactin® that is derived from milk proteins. It has been found to provide fast and effective support of joint health and function. MicroLactin® promotes blood vessel tightness, thereby limiting the amount of escaping white blood cells, which may help ease joint discomfort. In a study published in the journal, Current Therapeutic Research, MicroLactin® was shown to be effective in reducing joint stiffness, pain and immobility. Another study published in the same journal found that MicroLactin® supplementation resulted in greater joint health support when compared to glucosamine alone.

SUGGESTED USE: As a dietary supplement, take 2 capsules two times per day with water for the first 10-14 days (loading phase). Take 1 capsule two times per day with water thereafter for maintenance.

CAUTION: Not for use by persons under the age of 18. If pregnant nursing or taking prescription drug, consult health care practitioner prior to use.

WARNING: KEEP OUT OF REACH OF CHILDREN DO NOT USE IF SAFETY SEAL IS DAMAGED OR MISSING.

MicroLactin® is a registered trademark of Stolle Milk Biologics, Inc. (SMBI).
