

SYNTOL is a combination of probiotics, prebiotics, and enzymes formulated to cleanse the digestive tract of candida and other unhealthy organisms. ***SYNTOL** uses spore germination technology, a revolutionary new process that delivers probiotic spores rather than living bacteria. Spore germination technology is an extremely dependable means of delivering probiotics in less than ideal conditions. In addition, **SYNTOL** is encapsulated in all-natural Acid Armor® capsules. These capsules are designed to pass through the stomach intact, protecting

their contents from acidity.

SUGGESTED USE: Take 1 to 4 capsules with 8 oz of water between meals or as directed by your health care practitioner.

WARNING: If you are pregnant, nursing or under medical supervision please contact your healthcare provider before using this product.
