Supplement Facts

Serving Size: 1 Lozenge

Amount Per Serving % DV

Folic Acid 400 mcg 100%

Vitamin B-12 8,000 mcg 133,328%
(as methylcobalamin)

Other Ingredients: Fructose, sorbitol, cellulose, stearic acid (vegetable source), citric acid, natural flavors, silica and soya lecithin.

*Vitamin B12 is necessary for the maintenance of a healthy nervous system and for the metabolic utilization of fats and protein. It is essential for the synthesis of DNA during cell division, and is vital in rapidly multiplying cells such as blood cells.

*Methylcobalamin is the coenzyme form of Vitamin B-12 and is the form that exists in the body. Most other forms require some amount of conversion once they are consumed; methylcobalamin needs no conversion. It is the most active and effective form.
