LOT:

BEST BEFORE:

Toddler's Probiotic includes 6 strains of beneficial bacteria for infants and toddlers 1 - 5 years old. One serving per day helps maintain healthy intestinal flora, supports the immune system, and is ideal for travelers to maintain healthy flora while away from home.* Since probiotics are living organisms, their potency slowly decreases over time (2% per month). Keep refrigerated whenever possible and freeze to prolong shelf life.

*This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Gluten Free!
