Other Ingredients: Vegetable Cellulose. Contains <2% of: Silica, Vegetable Magnesium Stearate, Vegetable Stearic Acid.

- Our First Ever Timed Release BCAA Formula.
- BCAAs are especially important for bodybuilders since they comprise a large percentage of the amino acid composition of muscle.*
- BCAAs are also the only aminos that are directly metabolized in the muscle as opposed to the liver.
- Provides dual benefits since BCAAs can be used to build protein or broken down in muscle to supply a direct source of energy.*
- BCAAs provide muscle nitrogen support for a variety of metabolic functions, which can be especially important during heavy training.*
