

Directions: Mix one scoop (10 grams) in unchilled water or other beverage once daily or as directed by your healthcare practitioner.

Gluten Support GI Restore™ is a pure bovine colostrum and is collected within the first 16 hours after birthing. It is a natural whole food that provides a rich source of IgG and PRPs (Proline-Rich Polypeptides).* It also supplies protein, immune factors, growth factors, vitamins and minerals to ensure health and vitality naturally.* Numerous scientific studies have shown that colostrum supports the human immune and cytokine systems.* Bovine colostrum is actually 40 times richer in immune factors than human colostrum and is biologically transferable to humans.*

PRPs are information-carrying proteins (peptides) with amazing adaptability. They support the body's balanced production of cytokines by sending signals via specific cell receptor sites.* PRPs also support the thymus gland, which is known as the body's central command for the immune system.*

Many colostrum products are produced in a way that they lose these very important PRPs. This formula is low heat processed for maximum biological activity and is hormone, antibiotic and rBST free.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: Do not use if you are pregnant or if you have received an organ transplant. Keep out of reach of children.

Storage: Keep tightly closed in a cool, dry place.

Contents sold by weight, not volume. Some settling may occur during shipping and handling. The amount of product contained in 1 scoop may be above or below 10 grams due to variations in handling and product density.

Does not contain artificial colors, sweeteners and preservatives.

This Formula Meets or Exceeds cGMP Quality Standards.

Gastrointestinal Support*
