As we go about our day the immune system works to protect our body against free radicals. Phagocytes, Lymphocytes, T-Cells, B-cells and Memory cells all perform specific functions to help our bodies stay healthy. Diet, exercise, sleep, hydration and proper supplementation are all factors that help strengthen the immune system and reduce the stress factors that may weaken it. The ingredients in this 30 day **Immune System** program are formulated and traditionally used to support and stimulate the body's immune functions.*

**These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.*

Immune System

Supports the Body's Immune Function*

DIETARY SUPPLEMENT - 30 DAY PROGRAM

60 PACKETS - (150 Capsules)

VS-C TCM: Is a Chinese herbal combination that has been traditionally used to support the immune system.*

Elderberry D3fense: Contains an array of herbal ingredients that defend against the negative effects of seasonal changes.*

Immune Stimulator: Promotes immune response by stimulating macrophage, T-cell, B-cell and cytokine activity.*
