	Amount Per 1 Packet	%Daily Value
Psyllium Hulls (<i>Plantago ovata</i>)	2790 mg	†
†Daily Value not established.		

Other Ingredients: Capsule (gelatin, water).

The human liver is one of the most versatile and complex biochemical processing plants in existence; it's the metabolic mastermind of the human body and plays a vital role in digestion, metabolism, and detoxification. In Cherokee medicine the liver is considered the “seat of healing”, and in Chinese medicine it is “home of the wood element”, the *element of life*. In Western medicine the liver is the home of the *second digestion*, as all of the blood from the digestive tract is shunted through the hepatic vein before being allowed into general circulation. The ingredients in this 30 day **Hepatic System** program are formulated and traditionally used to support proper liver function, and to help protect and nourish the body's largest organ.*

Hepatic System

Supports Liver Function*

DIETARY SUPPLEMENT - 30 DAY PROGRAM
60 PACKETS - (30 AM, 30 PM; 210 capsules, 60 tablets)

Milk Thistle Combination: Provides nutrients and antioxidants that support and protect the liver and its functions. Silymarin found in Milk Thistle helps the liver produce cells and helps stabilize liver cell membranes, which helps guard liver cells from toxins.*

Liver Balance TCM: Contains Bupleurum, which is a Chinese “cooling herb” believed to help detoxify and replenish the liver, and to aid the upward flow of chi, thereby strengthening the body against stress. Other Chinese herbs in this formula may support circulation, digestive fluids, and general energy.*

Psyllium Hulls: Supports cholesterol levels already in the normal range.*
