Whey is a natural by-product of milk, and is loaded with strength-building protein, which plays a role in optimal nutrition.* Whey Isolate contains more Branched Chain Amino Acids – made up of Leucine, Isoleucine and Valine, as compared to regular Whey Concentrate. These nutrients are important components of muscle tissue.*

Whey Isolate is superior nourishment designed for those who want only the best in a nutritional drink. It provides all of the benefits Whey is known for and more by carefully removing more of the fat and lactose that you don't need while increasing the percentage of amino acids as compared to regular whey concentrate. For an extra treat, blend with fruit or your favorite non-fat frozen yogurt.
