

Pyruvate plays an important role in aerobic metabolism and the energy production process. It is the link between two of the main energy generating cycles in the body, glycolysis (anaerobic metabolism) and the Krebs cycle. Pyruvate is also found in small quantities in foods. Source Naturals calcium pyruvate is manufactured using a unique process that ensures the product's stability and purity. Extensive research indicates that pyruvate may play an important role in a healthy diet and exercise program.\*

Contains no yeast, dairy, egg, gluten, corn, soy or wheat. Contains no sugar, starch, preservatives, or artificial color, flavor or fragrance.
