Long a dietary staple of the people of Asia, Africa, and the Pacific Islands, coconut oil has been used for both food and health care. It has been used in Ayurvedic herbalism for 4,000 years and it is a natural oil, lower in calories than most oils. Coconut oil is composed of medium-chain triglycerides (MCTs), which are less likely to be stored in the body as fat than are long-chain triglycerides (LCTs). Combined with essential fatty acids, it is a perfect addition to an overall healthy lipid program.* The softgels are convenient and easy to swallow.

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.

Contains no yeast, dairy, egg, gluten, corn, soy or wheat. Contains no sugar, starch, salt, preservatives, or artificial color, flavor or fragrance.
