

NO ARTIFICIAL COLORINGS, FLAVORINGS
OR PRESERVATIVES

Body Ecology® Innergy Biotic with Seeds & Pulses is a delicious, liquid probiotic source of beneficial microorganisms. **Pulses** (soybeans, chickpeas, mung beans, lentils) are fermented along with biodynamic brown rice, and **Seeds** (quinoa, millet, alfalfa seed and flax seed). Together these pulses, seeds, and biodynamic grains form a gluten-free, raw, vegetarian, probiotic source. **Innergy Biotic** delivers an abundant supply of microbiota to your intestines, that help maintain a healthy inner-ecosystem.*

Directions for use: Chill bottle before opening and then slowly release the cap. To use as a probiotic, take several ounces per day. To create a refreshing drink you can also combine 2 ounces with sparkling mineral water and a few drops of stevia. 2 ounces taken with a meal helps promote digestion. Enjoy chilled in stemmed glassware for festive occasions. Batches may vary in color, taste and fizz due to wild-crafted ingredients and the fermentation process.
