

Muscle Feast AAKG can help facilitate in muscle growth by increasing the volume of blood flow to the muscle tissue through nitric oxide (N.O.) production. Which leads to increased oxygen and nutrient delivery, glucose uptake, muscle velocity and power output. Along with increased muscle growth; AAKG also accelerates muscle strength, recovery, and endurance in both fast and slow twitch muscle fibers.

SUGGESTED USE:

As an adult dietary supplement, take one 5cc serving (3.4g) one to three times daily.

**MIX 1 LEVEL (3.4g)
SCOOP WITH 6-8 OZ.
