Discussion: Lactoferrin is an iron transporter glycoprotein originally isolated from bovine milk. Lactoferrin is a multitasking protein with various biological roles including binding to iron, which contributes to its beneficial immune effects.*

Directions: Take 1 capsule 1-6 times daily with meals and a few hours before or after taking other medications, or as directed by a qualified health care practitioner.

Warning: Consult your physician if you are pregnant or lactating or if you have a medical condition, or if you're taking any medication. Keep out of reach of children.
