

ALPHADEX™ is a next-generation muscle hardening agent that utilizes clinically researched ingredients and is engineered for both the professional and recreational bodybuilder and athlete. The comprehensive formula in **Alphadex** allows users to achieve a dramatically leaner and more defined physique, while simultaneously continuing to increase strength and lean muscle mass.*

WARNING: Alphadex™ is a MAXIMUM strength lean muscle enhancing formula, and should not be consumed by persons under the age of 18. Do not exceed the recommended serving. Do not use if pregnant or nursing. If you have heart disease, diabetes, prostate, kidney, liver or thyroid disease, or any other medical condition, or if you are taking prescription or over-the-counter medication, consult your physician or licensed healthcare professional before use. Do not use if you are taking an MAO inhibitor. Before beginning any weight loss or fitness program, consult your health-care professional. **KEEP OUT OF REACH OF CHILDREN.**
