

Prolab® N-Large™ is a powerful mass gaining support formula designed to promote size on the hardest gainers. We emphasize the amount of protein per serving since it is the essential nutrient that promotes muscle mass.*

N-Large² also contains a special blend of carbohydrates to help fuel and support weight training. Fat, although shunned by some, is a highly concentrated energy source (double that of protein or carbohydrates). Fat is also a necessary component of all cell membranes, nerve covering, digestive secretions, and most importantly, hormone production. A diet too low in fats may actually impair growth. For these reasons, small amounts of fat are contained in **N-Large²** 52g Mass Gainer Whey Protein. For best results, combine **N-Large²** with a sensible diet and intense training program.*

- Promotes Lean Body Mass†
- Blend of High- and Low-Glycemic Carbs for Optimum Post-Workout Glycogen Replenishment†
- High in Branched-Chain Amino Acids (BCAAs)

Consult your healthcare professional prior to use if you have or suspect a medical condition, are taking prescription drugs, or are pregnant or lactating. People with allergies to milk or soy should consult their healthcare professional before taking this product.
