

THYROVATE™ represents the next evolution in non-stimulant weight loss research, with a revolutionary formula consisting of 7 scientifically researched ingredients that work synergistically to promote weight loss from multiple directions. **Thyrovate's** advanced multi-faceted formula is designed to dramatically increase metabolism, accelerate fat loss, inhibit fat production, suppress appetite, and eliminate stress-based weight gain.*

IMPORTANT: While Thyrovate does not contain caffeine or stimulants, it is important to understand that it is still a powerful, clinical-strength fat burning formula and should be taken only as directed. Do not use if pregnant or nursing. If you are taking prescription or over-the-counter medication, or have a medical condition, consult your physician or licensed healthcare professional before use. Do not use if you are taking an MAO inhibitor. Before beginning any weight loss or fitness program, consult your healthcare professional. Keep out of reach of children.
