

MUSCLE FEAST

Muscle Feast Maltodextrin is a high glycemic index carbohydrate making it ideal to be taken post workout with protein or when fuel is needed. The number of servings consumed can vary depending on your individual fitness goals and exercise being performed.

What are the benefits?

Maltodextrin contains "glucose polymers", linked sugar compounds that are easier for the body to assimilate and use. Glucose polymers are metabolized at a slow, steady rate that can help to sustain normal energy levels during endurance-oriented workouts and/or athletic events and support weight gain.

SUGGESTED USE:

Mix one serving (1 level Scoop) thoroughly into 6-10 ounces of water or beverage of your choice.

+

**MIX 1 LEVEL (38g)
SCOOP THOROUGHLY
WITH 6-10 OZ. OR MORE
WATER (OR BEVERAGE
OF CHOICE).**

ALL NATURAL / GLUTEN FREE / SOY FREE

Keep tightly closed in a cool, dry place away from sunlight.
