DISCUSSION: Methyl B12-15mg is an ultra-high dose formulation of methylcobalamin, which is a supplemental source of Vitamin B12 that supports the maintenance of normal levels of vitamin B12. This higher-potency formulation is for persons for whom research supports supplementation at higher levels.*

DIRECTIONS: Dissolve 1 lozenges under the tongue first thing in the morning and repeat 1-3 times a day with/without food, or as directed by a qualified health care practitioner.

WARNING: Consult your physician if you are pregnant or lactating or if you have a medical condition, or if you're taking any medication. Keep out of reach of children.
