Discussion: Nitric oxide is a simple molecule produced in the body that carries out numerous functions, such as vasodilation, supporting blood flow, oxygenation and nutrient delivery to the tissues.

Directions: Dissolve 2 lozenges in the mouth daily with/without food, or as directed by a qualified health care practitioner.

Warning: Do not use if you're pregnant, lactating. Consult your physician if you have a medical condition, or if you're taking any medication (eg. erectile dysfunction type products). Keep out of reach of children.
