Discussion: Strontium is an important trace mineral which concentrates in the skeletal system and promotes healthy bones.*

Directions: Take 1 capsule 1-2 times daily on an empty stomach, at least two hours before or after consuming food, calcium or milk since these can significantly reduce strontium absorption if taken together. Ensure an adequate daily intake of calcium and vitamin D.

Warning: Do not use if you are pregnant or lactating. Consult your physician before use if you have a medical condition, or if you're taking any medication. Keep out of reach of children.

Caution: May cause temporary transient increases in levels of creatine kinase that are unassociated with any disorder. Discontinue use and consult a health care practitioner in case of rash or hypersensitivity. Those who have or are at high risk for blood clots, heart diseases and/or circulatory, or have kidney disease must not use this product.
