

- GMP Manufacturing • Quality Assured • Independent Testing
- Do Not Use if Safety Seal is Broken
- Once Opened, Store in the Refrigerator to Maintain Optimal Potency

Discussion: The enterobacteria contained in Probiotic-3 act in symbiosis and supports a healthy intestinal flora. Lactic acid and butyric acid-producing probiotics inhibit the growth of non beneficial bacteria while promoting the growth of the beneficial *Bifidobacterium* strain.*

Directions: Take 2-3 capsules daily with/without food, or as directed by a qualified health care practitioner. Take at least 2-3 hours before or after taking antibiotics. Refrigerate after opening.

Warning: Consult your physician before use if you are pregnant, lactating, have a medical condition, or if you're taking any medication. Keep out of reach of children.

Caution: Consult a health care practitioner prior to use if you have fever, vomiting, bloody diarrhea, severe abdominal pain, or if these symptoms occur discontinue use and consult a health care practitioner.
