Brown seaweed contains a pigment, fūcoxanthin, which gives seaweed its color as well as an amazing array of health properties. Preliminary studies suggest that fūcoxanthin may increase a protein called UCP1. This may signal the body to convert the fat in adipose tissue into heat and energy. If true for humans, it may be useful in maintaining a healthy weight when used in conjunction with the Maximum Metabolism™ diet and exercise plan included within this bottle. It may also reduce metabolic inflammation generated by visceral adipose tissue.*

Contains no yeast, dairy, egg, gluten, soy or wheat. Contains no sugar, salt, preservatives, or artificial color, flavor or fragrance.
