

### Multi-Pro 32X

Athletes are a different breed. You put far greater demand on your body than the average multi-vitamin can handle. **Multi-Pro 32X** is specifically designed for the serious athlete with serious demands. †

#### Higher Potency - Higher Performance

For your body to perform at its maximum potential, you must supply it a vast and complex array of vital nutrients. Deficiency in just one of these essential vitamins or minerals disrupts the critical metabolic pathways that are needed for muscle growth, fat loss, physical energy, and mental function and focus. †

**Multi-Pro 32X** delivers you the nutrients you need at the potency your body demands. †
