

Wonder's Barley Grass is grown in the United States on the midwestern plains. Immediately after harvest it is dried by a special process that uses dehumidified air rather than heat to remove the moisture. Barley Grass is an excellent source of chlorophyll and contains many nutrients found in dark green leafy vegetables. It is grown on farms that use no chemical sprays or pesticides.

TAMPER EVIDENT: Do not use this product if imprinted foil seal under cap is broken or missing. Keep tightly closed.
