Advanced Fat-Burning Hormone Support

- Supports Leptin Production and Sensitivity†
- Supports Accelerated Fat Loss†
- Diminishes Weight Loss Plateaus†

Dietary Supplement

120 Veggie Caps

When following a weight loss diet, levels of your body's most important fat burning hormone, leptin, rapidly decline, resulting in slower fat loss and possible weight loss plateaus.

LeptiBurn™ overcomes both of these challenges with a blend of 6 scientifically-backed herbal ingredients designed to support leptin production and sensitivity. The result is a body primed for accelerated fat loss every hour of every day.†

†Caffeine is naturally found in Green Tea and Yerba Mate
