

Simply Purified

Affectionately known as 'Wild Red', the rich orange-red color of purified (not concentrated) Wild Alaskan Pollock Oil is all-natural and not increased in any way. Our simplest and most holistic formula, the unique color of this oil reflects the carotenoid micro nutrients from Wild Alaska Pollock's diet of Krill.

Our Story

Our Wild Alaska Pollock Oil is carefully purified at our family-owned-and-operated facility located in the heart of the Midwest. NSF Contents Tested & Certified proves our product meets label claim and is safe from harmful contaminants.
