

Suggested Use: Take 1 capsule daily, or as directed by a healthcare professional.

The CRaNiULS formula is based on the Council for Responsible Nutrition's (CRN) Upper Level of Supplementation (ULS). Rather than use the Food and Drug Administration's Recommended Daily Intake (RDI), CRN examines current scientific research to determine the maximum a human can consume with no adverse effects. Believing that optimal health levels lie closer to the ULS than the RDI, one CRaNiULS capsule contains 50% of the ULS for the nutrients listed. Due to size limitations this formula does not contain calcium, iron, vitamin K, magnesium, potassium, phosphorous and copper.*
