

Native to North America, the cranberry has a long history of medicinal use. Recently, it has been demonstrated to promote urinary tract health and provide antioxidant support.[†]

Our **Cran-Max® Cranberry** is produced from pure cranberry fiber, infused with cranberry extract. Through a proprietary process, the natural beneficial constituents of the whole cranberry are intensified and enhanced, making a single capsule more beneficial than 10 oz. of cranberry juice.[†]

CranMax® "CRAN-MAX" and CRAN-MAX logotypes are used under license with permission of their proprietor.

The Ultimate Extract® process used in manufacturing combines the marc (insoluble herb material remaining after extraction) with the extract. All beneficial components found in nature are preserved full spectrum to deliver superior bioavailability in our Cran-Max® Cranberry supplement.
