Made in USA

St. John's Wort is very popular in Europe where it is favored for its ability to support a balanced state of personal well being. * The assured potency formulation is made from the same type of St. John's Wort extract used in major research studies. Our extract contains 0.3% hypericin, the same level of this important constituent used in clinical trials. Concentrated, standardized extracts of Valerian root and Passion Flower herb are added to the standardized St. John's Wort extract to optimize the natural benefits of this exceptional dietary supplement. This balanced approach to formulation of dietary supplements ensures all naturally occurring constituents are available. Mfg. in an FDA Registered facility using Good Manufacturing Practices (GMPs)

TAPE EVIDENT: Do not use this product if imprinted foil seal is damaged, broken or missing. Keep tightly closed. Store at room temperature 59-86°F (15° to 30°C). Conforms to USP <2091> for weight.
