Keep out of reach of children.

Passion Flower Whole Herb and Extract is an exclusive scientific formulation consisting of herbal and natural ingredients that has been used for centuries in East Indian and Chinese Medicine as a mild sedative and calmative. It may be helpful for nervousness and anxiety. Passion Flower contains two major components, glycosides and flavonoids that need to be combined as in the whole herb to be effective. The Wachters' Exclusive Blend of Sea Vegetation* is the key ingredient that makes this formula unique.*
