

Optimal Vitamin D Protection in a Delicious, Sour Lemon Gummy
Vitamin D is often referred to as “the sunshine vitamin” because we can synthesize it with exposure to sunlight. However, sunscreen use, environmental factors, age and diet may contribute to vitamin D deficiencies. Looking beyond simple deficiency prevention, current scientific research reveals significant health benefits from higher, optimal potencies. Vitamin D 1,000 IU Sunny Gummies™ makes it easy to get optimal-potency vitamin D protection every day. Just one delicious gummy delivers:

- **1,000 IU Vitamin D**—optimal potency to support enhanced immune function, cardiovascular, colon and breast health, promote calcium absorption, protect bone strength and strengthen nerves and muscles surrounding bones.*
- **100% Natural Nutrition**—natural sour lemon flavor and organic cane sugar for a great tasting way to supplement your diet.

SUGGESTED USAGE: Formulated for adults, chew one gummy daily. For use by children seek the advice of a healthcare provider.
