Keep out of reach of children.

PGS provides **Proanthocyanadins** from **Grapeskin and Grape Seed Extracts** that have been described as the most active substances known in the battle against free radicals. Free radicals are highly destructive, unstable molecules that can damage and destroy the body's cells. As free radical scavengers, these all-natural compounds may be 20 times more effective than Vitamin C and 50 times more effective than Vitamin E. The Wachters' Exclusive Blend of Sea Vegetation® is the key ingredient that makes this formula unique. *
